NORTH KERN WATER STORAGE DISTRICT

March 22, 2023

NOTICE

Rosedale Ranch Improvement District Agricultural Water Users

Surface water deliveries for agricultural irrigation will be available for landowners in the RRID area with turnouts on RRID canals and for landowners that elect to use temporary/mobile pumps on the canal. This water surface supply will be available through the summer months. The District encourages landowners to make accommodations to use surface water for irrigation demand through the summer and to contact the District if you plan to set up a mobile pump. In the event irrigation demand is greater than the canal delivery capacity, deliveries will be prorated accordingly.

Effective March 24, 2023 through April 7, 2023, the District's temporary water toll will be:

\$10.⁰⁰ PER ACRE-FOOT
for Project Lands in RRID

The water toll will return to **\$155 per acre-foot** on April 8, 2023. The Board of Directors may make future adjustments to the water toll as necessary based on watershed hydrologic conditions and snowmelt runoff.

Please note that all water orders should be made 48-hours in advance.

If you have any questions, please contact the District.

Sincerely,

A handwritten signature in blue ink, appearing to read 'D Hampton', with a long horizontal flourish extending to the right.

David Hampton
General Manager
